

Conterra Internet Solutions

Fast and reliable—that's what you need and expect from the Internet. You can't afford to lose business due to unreliable, inconsistent connectivity. Conterra's Internet Solutions go beyond the expectation of fast and reliable to deliver high bandwidth and availability that helps you work smarter and gain peace of mind.

Overview

Conterra has the people and experience to design, deploy, and operate the high-performance dedicated Internet Solutions that give you the competitive edge. Flexible topology, capacity, and cost-effectiveness turns your Internet into a business tool. And when your business tools perform better, so does your business.

Benefits and Features of Conterra Networks Internet Service

Conterra Networks' dedicated fiber-optic Internet service provides reliable, high-bandwidth Internet service delivered by local support personnel.

- Dedicated physical fiber network—separate from the public cable or phone network
- Symmetrical bandwidth up to 10 Gbps
- Highly scalable
- At least 99.9% availability
- Technical, IPv4 and IPv6 support
- Supported and backed up by local support personnel
- Proactively monitored 24/7/365 by Network Operations Center (NOC) to ensure service exceeds expectations
- Direct connections with Tier 1 Internet backbone providers

Industries We Serve

Conterra Networks serves educational, healthcare, financial, government, and wholesale organizations across the nation that require high quality, scalable networks – enabling you to focus on your priorities.

K-12 / Education

Administrators, Teachers, and Communities – Build a more effective education environment

Healthcare

Health care administrators and health care professionals – Build the most effective and reliable healthcare network with Conterra Networks.

Enterprise

Entrepreneurs, innovators, and thought-leaders – Pave the way for greater business growth.

Government

Government administrators – Build an effective working environment with a flexible, scalable network from Conterra Networks.

Carrier / Wireless

Carriers can address their unique needs – whether carriers desire the ability to architect their own network over dark fiber.

Why Conterra Networks?

Customization

Build the most effective solution with a customized arrangement of transport services addresses your specific needs.

Flexibility

Choose from Fiber, Microwave and Hybrid networks to address your communication needs – no matter where.

Scalability

Partner with an experienced high-capacity network provider that builds communication solutions to enable your future growth and expansion.

Reliability

Experience industry leading performance with 99.99% availability that is built into every network we design, build and manage.

Conterra exceeded all of our requirements including a design that will support increased bandwidth in future years.

My staff and I appreciate the quality of work and professionalism demonstrated by Conterra. Conterra's project management was truly outstanding.
