

Overview Details

Depending on your organization's priorities, we will design, deploy, and operate the highest quality solution that will give your organization the flexible topology, capacity, and cost-effectiveness that will ensure your network is fast and reliable – built exactly to meet your specifications.

Benefits of Conterra Networks' Private Custom Networks

Our purpose-built fiber, microwave and hybrid dedicated Private Custom Networks deliver a network solution engineered for your unique needs. Our background in building, operating and managing custom networks provide our customers the optimal solution whether in Metro or Rural areas. We have forged a wide array of partnerships with LECs, MSOs, utilities, municipalities and other network operators that provide us additional capabilities to address the most challenging network requirements.

- Fiber, Microwave, and Hybrid Solutions Available
- Custom Solutions for both Metro and Rural areas
- Virtually limitless Scalability and Network Control
