

GOVERNMENT

Government organizations require an unparalleled level of efficiency and effectiveness from their networks. Exceed current and future needs with a fiber backbone capable of virtually unlimited capacity.

Exceed Expectations

State and local government agencies face a growing demand to provide online services to the public. Collaboration tools, video, and multimedia resources are crucial for delivering vital information to citizens.

Conterra Networks can help you stay current and central to your community through a network solution that is unparalleled in efficiency and effectiveness.

Government Needs

Our fiber-driven network is the future-proof, scalable solution you need to remain constantly in touch and in service to your constituents. Turn to experienced network professionals who are as determined as you are to deliver results.

- Meet and exceed continually increasing community expectations
- Leverage technology to improve services
- Meet the increasing demand for reliable access to cloud services
- Maintain and update an ever-increasing, complex infrastructure

Conterra Solutions

—○— **Internet** Connect to the local community and deliver vital services to your constituents

↗ □ **Ethernet** Connect government locations to a single, easy to manage, flexible network that increases efficiency and enables greater responsiveness

☎ **Voice** Solutions include budget-minded options that allow the use of existing telephone infrastructure

Conterra is highly experienced in designing, building, and managing flexible networks that address your unique needs. Customization is our specialty.

FIBER DRIVEN. PEOPLE POWERED.

That's our promise. Conterra is committed to delivering today's fastest and most efficient fiber technology to businesses across the nation, and our highly-qualified PEOPLE—not just systems—serve you better than any other provider, in every single market.

Our Suite of Connectivity Solutions

Designed by experienced network professionals you can trust, deliver a robust network that is fiber-fast, reliable and scalable, built and serviced by hands-on teams who support you and your customers at every step—every hour of every day.

Internet

Go beyond the expectation of fast and reliable, to high bandwidth availability that helps you work smarter and gain peace of mind.

Ethernet

For critical speed and reliability, trust fully-managed, fiber-based ethernet.

Private Custom Networks

We design and build custom fiber, microwave and hybrid systems.

Dark Fiber

The infrastructure you need to take control of your network.

Voice

Discover how digital communication can benefit your business.
